

The Kinderkey

CosySafe Cot

- I need a height adjustable cot/bed
- Can it have Perspex doors?
- Can it have a mixture of Perspex and wooden rails?
- Can I choose the height of doors I need?
- I need it to profile.
- I need it to have Trendelenburg tilt.
- Can I choose the height of the padding?
- Can I choose the colour and pattern of the fabric?
- It needs to be strong.
- It needs to be safe.
- I need to see it before I decide if it's suitable.
- It needs to be the best cot on the market for my money.

Kinderkey says **yes**
CosySafe Cot is the right answer

KINDERKEY

Features

- Safe sides available up to 1500mm high
- Height adjustable from 400mm-800mm or 220mm-620mm
- Fully electric four part profiling or non profiling base
- Four section mattress support
- Four swivel and locking castors
- Cot/Bed platform breaks into two pieces to enable easy transportation and installation
- Outward opening four section folding panel doors on one or both sides
- Sides available in wooden rails or Perspex panels
- Easy open childproof locks
- The optional fire retardant foam padding is covered with Crib 5 waterproof, anti-microbial fabric and does not need to be removed to operate any of the bed functions
- Ideal for long term care as the Kinderkey CosySafe Cot/Bed can easily convert back into a standard height adjustable profiling bed

Exterior dimensions

- Standard size 2200mm x 1000mm
- Paediatric size 2000mm x 1000mm
