

CosySafe PLUS

**An electrically operated,
height adjustable cot/bed
with four part profiling**

CosySafe PLUS is an electrically operated four part profiling cot/bed.

It is height adjustable from 300mm-800mm.

The sides are available to your required height and only limited by the size of your room.

The doors can be made in perspex, wooden rails or Ash wood panels.

We offer padding made with soft, waterproof, anti-microbial fabric in beautiful patterns and colours. The padding does not need to be removed to operate any of the bed functions.
