

The Kinderkey

CosySafe Cot

Our CosySafe Cot is the perfect solution for individuals with extra care needs, providing comfort and safety whilst also promoting a good night's sleep.

Whether you are a parent, caregiver or healthcare professional, you can trust our cot bed to keep your loved ones safe and secure.

Our bespoke cot bed is made to order, with a solid wood frame that can be made up to 1100mm high. (If you need a higher sided cot take a look at our CosySafe plus.) Four outward opening doors on one or both sides provide easy access, while the safe sides and doors are available in a choice of wooden rails, perspex panels or a combination of both.

The optional padding provides a soft and cosy interior and is made using high quality, durable materials, ensuring it can withstand the wear and tear of everyday use.

The crib 5 material is waterproof, anti-microbial and is easy to clean and maintain.

We have a wide range of beautiful colours and patterns making it easy to customise the cot bed to suit your personal style.

Koala Cot

CosySafe cot with equipment shelves

At Kinderkey Healthcare, we take pride in our commitment to crafting bespoke cot beds that perfectly suit your requirements.
